ALL IN ONE™

**Powerful Software**  
**Outstanding Support**  
**Complete Range of PLCs**

**UniStream®**

## Powerful Software

Single, intuitive, feature-rich programming environment & utilities suite

Unitronics provides a powerful solution; our software is more than a match for any requirement. Ladder programming, hardware configuration, HMI design and communications are all programmed in an single, intuitive software environment. This all-in-one approach reduces the time and effort needed to program a unit. Not only is our software user-friendly, all of Unitronics software and utilities are provided at no extra cost.

## Outstanding Support

Expert support without fees or tiers

"The support, both via telephone, email and the Unitronics forum, is among the best in the industry" says Jose Padro, President of Alpha Systems, Inc. Unitronics offers best-of-breed technical support to every user without added fees, tiers, or hoops to jump through. Every question we receive is answered by an experienced member of our support team. The same team of experts is available at every step of the project.

## About Unitronics

## Complete Range of PLCs

A range of product lines to match your exact requirements

With 25 years of experience in automation, Unitronics has established several PLC lines with options to meet a diverse range of requirements. Our R&D strategy is to stay close to the market; we listen to our customer's current needs and future plans and develop new solutions accordingly. This strategy enables us to offer simple tried-and-true solutions alongside cutting edge innovations.

**PLC  
+HMI  
ALL IN ONE™**

# Modular All-in-One

All-in-One, simple configuration—saves on cabinet space and wiring costs

The UniStream® platform comprises a versatile and powerful CPU, a variety of elegant HMI touch-panels, I/O modules and communication modules that are very easy to install and require minimal wiring.

Supports

**EtherNet/IP™**

I/O or Communication modules: Simply snap to the back of the HMI panel- no need to move any of the neighboring units.

Use "Wide" I/O modules for a denser I/O arrangement (their model numbers comprise a "W").

# Remote Access

Access your PLC from anywhere at anytime

**Access UniStream®  
from anywhere at any time**

Connect directly via Ethernet or USB, or use VNC to connect mobile phone, tablet, or PC. Use your browser to surf to UniStream's built-in webserver.

# UniLogic® Top Features

UniLogic® Studio provides a unified environment for hardware and communication configuration, Ladder, and HMI applications.

## All-in-One ...

Ladder, HMI & Web Server, Hardware & Communications, Data Trends & Recipes, Alarms and more

## Build-it-Once ...

Reuse Library: Functions, HMI & Webpages

## Context-sensitive...

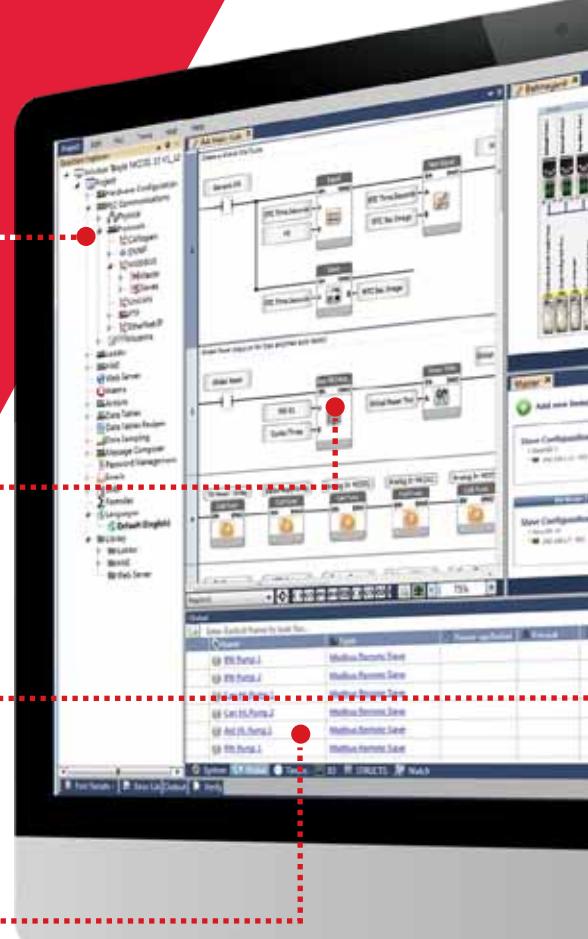

Toolbox for Ladder, HMI & Web Elements

## Power from C ...

Structs & C Functions

## No Searching ...

Everything is visible

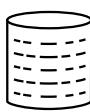

# UNILOGIC® Studio

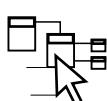

## All-in-One Ergonomic Design - Everything is Visible

The Solution Explorer shows it all: Hardware Configuration, Ladder functions, HMI and Webserver screens, Actions, Data Tables, Data Samplers, Communication protocols, SMS, and emails. Context-sensitive toolboxes display only relevant options and functions.

## Structs - Tag Database on Steroids

You create Structs - groups of data tags of different types organized into a single, logical unit - and reuse them across programs, especially with UDFBs (User Defined Function Blocks). UniLogic' built-in Structs enable you to configure and control hardware and complex functions such as Communications and PID.

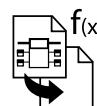

## Speed Ladder Programming – plus “C” Power

Build your Ladder: drag & drop elements that snap into place, error-free. Use the built-in C Function editor to write C functions. UniLogic means you ‘write-it-once’: create code to use, reuse, and export across projects. Create UDFBs (User Defined Function Blocks) - self-contained functions for tasks such as oven control.

### Design Beautiful HMI Displays - Stream Video, Audio, Pdf

HMI screens appear as if they were designed by a graphic artist, when you use UniLogic's extensive free graphic library and HMI widgets. The simple HMI editor supports layers, image transparency, overlap, and rotation. Video and audio player widgets, complex trend graphs and gauges for the display of run - time values, and data table display, are visible in the HMI toolbox - just drag & drop them onto your screen.

### Build-it-Once, then Reuse - the Ultimate Time Saver

Add your UDFBs, HMI screens, and Web Pages to the Library. Then, drag & drop them where you need them - UniLogic takes care of the tags. You can import your Library into any project, and share it with others.

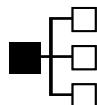

### Languages: from Italian to Chinese at the touch of a button...

UniLogic supports any language that you can type - including Asian languages such as Chinese, Japanese, and Korean. You simply enter translated text into the Language Table Translation. Instantly switch HMI language via user actions or program events.

### Built-in Alarms - Easily Boost Application Safety

Accords with ISA 18.2 standard guidelines for Alarm Management systems in the process industries. Intuitive features allow operators to detect Alarms, analyze them, and take action. Export your Alarm Log via FTP, send it via email, or copy it directly from the controller via a DOK. Alarms feature full multi-language support.

### Communications: Configuration not Programming

Incredibly fast, easy to configure and implement, UniStream data communications function independently of Ladder. A single PLC can contain multiple slave definitions - and multiple master definitions. [Communicate with any device](#) via plug-and-play for protocols such as MODBUS, CANopen, SNMP, and EtherNet/IP. Use Message Composer for data communications with devices such as frequency converters and bar-code readers via any Ethernet, CANbus or serial 3rd -party protocol. UniStream also supports CAN Layer 2, FTP Client/Server, SMS, email, and communications via GSM/GPRS modem.

[Remotely Access](#) your UniStream via VNC from PC, cellphone, or tablet. Plus, the built-in Web Server enables secure remote monitoring and data editing.

### Power Data Tools - Data Sampler, Data Tables, Recipes

Data Samplers record dynamic application data, such as output values, at fixed intervals into files; display it as Trend graphs on the HMI.

Data Tables are a unique power feature: organize and manipulate data via Ladder, create data logs, implement Recipes, import/export values from/to Excel, allow users to enter/edit data into Data Tables via the panel, and more.

### Web Server: Easily create web pages

You do not need to know any HTML at all to design elegant web pages: the drag & drop interface is identical to the HMI editor. A rich graphic library is at your disposal. The Web Page toolbox offers user controls and widgets, enabling the end user to view and enter application data via any web browser.

Completely modular in architecture, UniStream® enables you to create a compact control device that comprises the optimal configuration for your specific application.

	<b>CPU + 7" HMI Panel</b>	<b>CPU + 10.4" HMI Panel</b>	<b>CPU + 15.6" HMI Panel</b>
Part Number	USC-P-B10 and USP-070-B08/ USP-070-B10	USC-P-B10 and USP-104-B10	USC-P-B10 and USP-156-B10
Number of I/Os per CPU (On-board, local and remote)		Up to 2,048	
On-board Uni-I/O™ or Uni-COM Modules (All-in-one configuration)	Snap up to 3 slim or 2 wide modules <sup>(1)</sup>	Snap up to 5 slim or 3 wide modules <sup>(1)</sup>	
Local Uni-I/O™ Expansion	Use Local Expansion Adapters to add up to 80 slim modules or 50 wide modules <sup>(1)</sup>		
Remote I/O Expansion	Use EX-RC1 adapters to further extend the number of I/Os <sup>(4)</sup>		
Bit Operation	0.13 µs		
Ladder Memory	1 MB		
External Memory	microSD and USB Flash drive		
Video	Show MPEG-4 videos on the HMI screen		
Audio	Play MP3 audio files via internal speaker, or external speakers via audio-out jack		
Power Supply	12/24VDC		
Backup Battery	CR2032 Back-up RTC values, system data and retained tags		
Communication			
Ports	2 Ethernet • 1 RS485 • 1 CANbus 2 USB host ports • 1 USB device port for programming		
Protocols	MODBUS, EtherNet/IP™, CANopen, SNMP, FTP, BACnet <sup>(2)</sup> , RTSP, VNC, UniCAN, GSM (SMS, GPRS), KNX, Message Composer for 3 <sup>rd</sup> party protocols		
HMI Panel			
Type	TFT, LCD, Touch HMI Panel		
Size	7"	10.4"	15.6"
Resolution	800x480 (WVGA)	800x600 (SVGA)	1366x768
Viewing Area Height x Width (mm)	USP-070-B08: 152.4 x 91.44 USP-070-B10: 154.08 x 85.92	211.2 x 158.4	344.23 x 193.53
Colors	65,536 (16bit)		16M (24bit)
Display Backlight Illumination	White LED		
Environment			
Protection	IP66, IP65 and NEMA4X when panel-mounted <sup>(3)</sup>		
Operating Temperature	-20°C to 55°C (-4°F to 131°F)		0°C to 50°C (32°F to 122°F)

#### Local Expansion Adapters

UAG-XK125	Short Range Kit, 125 cm
UAG-XKP125	Short Range + embedded Power Supply Kit, 125 cm
UAG-XK300	Short Range Kit, 300 cm
UAG-XKP300	Short Range Kit + embedded Power Supply, 300 cm
UAG-XKPLXXXX	Long Range + embedded Power Supply, lengths: 600, 1200, 1500, 2000, 3000cm

#### Uni-COM™ Communication Modules

UAC-01RS2	1x RS232
UAC-02RS2	2x RS232
UAC-02RSC	1x RS232 port and 1x RS485 port

<sup>(1)</sup> Uni-I/O™ module series are "Slim" & "Wide". "Wide" I/O modules offer a denser I/O arrangement; their model numbers comprise a "W". In width, one "Wide" module = 1.5 "slim" module.

<sup>(2)</sup> Using a gateway module: GW-BAC1

<sup>(3)</sup> UniStream complies with IP66 and NEMA4X only with the audio seal installed, please refer to the installation guide of the HMI panel for information.

<sup>(4)</sup> EX-RC1: via CANbus, integrate standard Unitronics' I/O modules at distances of up to 1000m. Refer to website for more information.

# Expandability On-Board, Local, & Remote I/Os

Select the perfect combination of Uni-I/O™ modules and configure them to fit your application. Snap up to 5 modules on a 10.4" or 15.6" HMI panel, up to 3 on a 7" panel. Expand further either locally or remotely.

1. This module utilizes two high speed blocks that can each be assigned either to the inputs or to the outputs.

2. 2 outputs are high-speed, up to 250kHz: function as normal or high-speed PWM (same freq. and different duty-cycles). 2 outputs are normal speed: function as normal-speed PWM outputs (same freq. and same duty cycle).

3. Width: 1 'wide' I/O module = 1.5 'slim' I/O modules

4. Note that the high-speed inputs are included in the total number of digital inputs.

5. Note that the high-speed outputs are included in the total number of digital outputs.

6. Not isolated
